1 Technology Advancement

- Create a parent advisory technology committee that will research best practices and identify future trends that will propel and prepare Wesleyan students to be advanced in their technological abilities. **Committee members have been identified and will begin meeting soon.**
- A thorough three-to five-year technology plan will be tasked for this committee. **Tasked to the Technology Committee.**
- Continue to advance our current infrastructure and bandwidth to support the advancement of technology in the classroom. **Completed – PTL!**
- Identify and begin professional development for faculty in advanced technology integration. **Significant**
- improvement and offerings for our staff have occurred; ongoing.**
- Expose students to multiple platforms and technologies. Due to limited classroom space, purchase mobile laptop cart labs. **2 of 3 labs completed with AGG Funding – PTL!**
- Complete the installation of interactive whiteboards throughout the campus. **Completed – PTL!**
- Investigate the addition of iPads, MacBooks, Notebooks, and other learning tools for the classroom environment. **Tasked to the administrative team and beginning to implement.**
- Research and implement additional advanced application courses that may include computer science, graphics, web design, IT support, robotics, etc. **Waiting on evaluation from the Technology Committee; outside funding/donor support is needed.**
